

St. Charles County Council Journal

July 8, 2002

The St. Charles County Council met in the Council Chambers in the Executive Building at 7:00 p.m. on Monday, July 8, 2002. Council Chair Schnur introduced Reverend Martin Jacobsen, with the St. Charles Presbyterian Church, who provided the invocation. Council Member Faith led in the Pledge of Allegiance.

The following roll call was taken by the Clerk:

Council Member Terry Varner	present
Council Member Joe Brazil	present
Council Member Bob Schnur	present
Council Member Doug Funderburk	present
Council Member Sally Faith	present
Council Member Dan Foust	absent
Council Member John White	present

County Executive Staff present:

Joe Ortwerth, County Executive

Joe Kernell, Director of Administration

Anne Klein, Director of Policy Development

Joann Leykam, County Counselor

IN THE MATTER OF PUBLIC COMMENTS

Council Chair Schnur announced public comments can be on any issue and are limited to three minutes per speaker and six speakers per topic. Members of the audience were given an opportunity to make comments.

Bill No. 2057 - Application 1596/ Rezone St. Andrews Golf Course

Tom Hughes, President of T.R. Hughes Inc., explained that Frank Vatterott, one of the property owners, had planned to be in attendance but had been detained on business. Hughes stated it was crucial to the family this sale takes place and if this proposal for the property is denied there are other developers interested in developing the property. Hughes pointed out the original plan had been presented with 515 units and has been reduced to 376 units. Hughes noted this development offers affordable housing ranging from villas and single family housing to a private gated community. Hughes pointed out there has not been a serious offer presented to retain this property as a golf course and it has never been the intention of the family to keep this property as a golf course forever. Hughes stated he has met with some of the neighboring property owners to address some of their concerns and it is his desire to be a good neighbor.

Gary Gerber, 3361 Hannibal, expressed his opposition to this proposal. Gerber stated his concerns regarding the current erosion problem on the property and stated it needs to be addressed before any development is even considered. He stated it should be the developer's responsibility not the homeowners. Gerber pointed out he had met with representatives from DNR and a soil expert and in their opinion this proposed plan would not be good for the environment or the surrounding area. Gerber stated access to sewers is another issue that needs to be addressed as well as the influx of traffic that will be generated on the already congested North Service Road and West Clay. He concluded by stating don't let developer's design our communities.

Kevin Kast, CEO of St. Joseph Health Center, expressed his support for this development. Kast noted his concern on the decline in population in the eastern end of the county and the negative impact this could generate in the future. He stated this type of development would offer housing opportunities for medical personnel and staff. Kast commended Hughes for his community involvement and stated with his name behind this project it will be an enhancement to the entire eastern part of St. Charles County.

Don Delmez, 3240 Connecticut, expressed his opposition to this development. Delmez noted his concerns regarding allowing anything other than single family homes because it leads to sub-leasing and rentals and that is currently a problem in that area. He stated the area residents are working with the City of St. Charles in efforts to retain this property as a golf course.

Council Chair Schnur requested clarification from Mr. Delmez on whether they were working with the County or City. Delmez stated they had approached the County but the City has been more receptive.

Harlan Pals, 1200 Country Club Road, noted his support of this development. He commended Hughes for the quality projects he has developed. Pals pointed out this property should be developed to generate a strong tax base. He noted if enrollment in the schools decreases there is a larger burden placed on the taxpayers. Pals stated it is his belief that golf courses should be run by private industry and he does not wish to see his tax dollars used to run a golf course. He stated he is happy to see the original plan has been lowered to a smaller number of units and stated this development will be an asset to the eastern part of St. Charles County.

Daniel Slapak, 2540 Bolton, stated as a thirteen year old member of the Junior League at St. Andrews Golf Club, this course is the only course in St. Charles County that promotes a junior league. He expressed his concern if this course is closed, where will the three hundred and twenty junior league participants continue to play. Slapak asked for the Council's consideration in denying this request and thanked them for listening.

Bill No. 2059 – Approval of preliminary plat of The Estates at Heritage Hills
Raymond Stone, 2334 Canyon Drive, noted as an advocate against the Cavendish Development which was previously proposed for this property, he expressed his support of this current proposal. Stone stated the current developer has worked closely with the residents and this plan has significantly less units and will create a more sufficient tax base for the school district. Stone requested the Council's favorable approval of this plat.

Mike Everhardt, 211 Fox Ridge Drive, noted his support of the development but expressed his concern to access to the property during construction. He noted his concerns regarding reducing the construction traffic through Heritage Landing and routing it

through Fox Point Subdivision. He suggested having the developer set up an escrow account to take care of the damage caused by the construction of this development. He requested the consideration in setting up a separate construction entrance so that the bulk of the construction flow would not have to be through Fox Point.

Carl Phillips stated a resident of Heritage Landing for the past twenty-four years, his support of this development. He noted the Hemsath property is adjacent to his and after reviewing the plans he is pleased with the plans presented. Phillips stated he had been in contact with the President of Fox Point Subdivision and it was his understanding they were also in support of this proposal. Phillips urged the Council's support of this plan.

Mike Cope, 215 Foxtail, stated although he is in support of the proposal for this area, he is concerned about the damage that will occur to the Foxtail Subdivision during the construction process. Cope stated MODot had been short sighted in providing adequate access routes to the property when they knew it would eventually be developed. Cope suggested having an escrow account set up to defray the cost of clean up and damage that will occur during the construction of this development. He stated their subdivision will be adversely affected during this construction and stated the responsibility needs to be shared by the neighboring subdivisions as well. He requested MoDot approve a separate construction access to this property.

Council Member John White urged the residents to petition the Missouri Department of Transportation to request a new access road and noted the more citizen involvement the better the chances would be to see a new access point established.

Dennis Ferguson, 1550 Mount Vernon, stated on as President of the Heritage Homeowners Association, their support of this project. Ferguson stated they had worked with the developer and are so pleased with the project the development is going to be included in their indentures. Ferguson noted his appreciation of a park being included in the plan and pointed out Heritage residents are making sacrifices during the construction process.

There being no further speakers, Council Chair Schnur closed public comments at 7:37 p.m.

IN THE MATTER OF THE ORAL REPORT FROM THE COUNTY EXECUTIVE

County Executive Joe Ortwerth expressed his sympathy to the Sheriff's Department on the loss of one of their officers, Jeff Austin. Ortwerth explained because of this loss, the flags were being flown at half-mast. Ortwerth also expressed his sympathy to Council Member Schnur and his family on the recent loss of his father.

Ortwerth updated the Council on the Workforce Housing issue. Ortwerth stated Paul Dribin and Associates conducted a study and it did reveal a lack of housing units available to families of low or moderate income. Ortwerth stated the question is how to address this issue further. The determination was made by the consensus of the Council at a work session, to establish a Workforce Housing Task Force to determine what strategic direction the County should proceed with regard to housing policy. Ortwerth announced the appointments to the Workforce Housing Task Force. Ortwerth stated his desire to have a report prepared with their findings by April 2003 to be presented to the Council.

IN THE MATTER OF THE CONSENT AGENDA

Council Member Funderburk made a motion to approve the Consent Agenda as presented,

seconded by Council Member Faith and unanimously approved. The approved items are as follows:

Approval of Journal of the previous meeting (06-25-02)

Approval of Bids

Facilities Construction – renovation and additions to Wentzville Alarm and Dispatch

Facility Demien Const./\$702,100.00/231-7300-429.72-50 & 301-9800-413.72-Parks & Recreation – purchase, erection, renovation & construction of log cabins, shower house, convention center & pavilions/Klondike Park/Du-Con,

Inc./\$752,102.00 /245-3310-452.71-50, 245-3310-452.72-50 and 245-3310

-452.72-70

Old Colony Farms NID – road improvements/L. Krupp/\$133,026.00/241-3526-466.46-10 Brinnington Village NID – sewer improvements/Missouri Piping/\$175,000.00/241-3514-

466.46-10

Approval of Nominations/Appointments

Miscellaneous

Community Health & the Environment – Comprehensive Family Planning

Services Contract Amendment 1, Contract No. ERS175-2069F with the Missouri

Department of Health and Senior Services/\$20,250.00

Facilities Construction – Change Order #9 – Juvenile Justice Center/Tri-Co/\$57,866.17

Line Item #025-9800-413.72-2

Planning Dept. – Change Order #1 – Mid Rivers Mall Bike Trail

Kuesel Excavating/\$9,810.00 Line Item #001-3100-419.73-10

Highway Dept. – Change Order #1 – Greens Bottom Hauling/Nor-Vel Construction

Co./\$985.00 Line Item #205-9400-431.76-21

-Addendum #3 to Design Service Contract/Towers Road/URS Corporation

\$6,200.00/Line Item 205-9400-431.76-17

Glenbrook/Shady Acres NID – Change Order #2/Missouri Piping/\$4,560.52/241-3515-466.46-10

IN THE MATTER OF RESOLUTION 02-07

Resolution No. 02-07 – Sponsored by Council as a Whole – A Resolution reaffirming the Pledge of Allegiance of the United States of America

Council Member Funderburk noted letters of support had been received from Ted House, Carl Bearden, and Bill Luetkenhaus. Funderburk stated the intent of the Pledge has always been clear and although the decision to remove God’s name from the Pledge has been retracted, to do nothing sends a wrong message. Funderburk stated he fully supports this resolution and it sends a message to our children the need to respect and reflect on our great nation.

Council Member Brazil noted his outrage when the decision was made to change the Pledge. He stated it is important to send a message across the nation this is unacceptable and this change infringes on our freedom of choice. Brazil questioned if the next step would be to redesign our currency because of the wording “In God We Trust”?

Council Member Schnur noted when the “Lord’s Prayer” was removed from the school systems in the 1960’s statistics prove there is a direct correlation how this affected our social fabric of our country. Schnur stated we should not repeat past history and allow this to happen again. He pointed out the need to start at a local level to send a message this will not be allowed.

There being no further discussion, Council Chair Schnur called for the following roll call vote: Council Member Varner – yes, Council Member Brazil – yes, Council Member Schnur – yes, Council Member Funderburk – yes, Council Member Faith – yes, Council Member Foust – absent, Council Member White – yes. Resolution No. 02-07 was unanimously approved. Editor’s Note: Council Member Funderburk noted although Council Member Foust was absent for the vote on this issue, he was in full support, therefore this Resolution has full support of the entire Council.

IN THE MATTER OF BILLS FOR FINAL PASSAGE

Bill No. 2054 – Sponsored by Bob Schnur – An Ordinance authorizing the County Executive to execute a license agreement between Cadmus Site Group and St. Charles County to perform certain soil and groundwater sampling and testing on land owned by the County between Highway 370 and Elm Point Road in the vicinity of Huster Road

There being no discussion, Council Chair Schnur called for the following roll call vote: Council Member Varner – yes, Council Member Brazil – yes, Council Member Schnur – yes, Council Member Funderburk – yes, Council Member Faith – yes, Council Member White – yes. Bill No. 2054 was approved.

IN THE MATTER OF BILLS FOR INTRODUCTION

Bill No. 2055 – Sponsored by Terry Varner – An Ordinance amending Chapters 405 and 410 Of the Ordinances of St. Charles County, Missouri, comprising the Unified Development Ordinances of St. Charles County, upon Application 1598

Discussion: Council Member Brazil referenced a letter dated June 24, 2002 from Perry

Eckhardt, Missouri Department of Conservation, that suggested the current amendment does not mandate the levels of ammonia and phosphorus to strict enough standards.

Anne Klein, Director of Policy Development, clarified she had been in contact with Ken Maki, Technical Advisor, with these concerns and he stands by his original recommendation regarding those two levels.

Council Member Brazil requested Mr. Eckhardt from the Department of Conservation, come forward to address this issue. Eckhardt stated they are happy to see criteria being established and explained with Lake St. Louis being considered a reservoir the recommended levels are different.

Council Member Funderburk questioned why these stricter standards are being brought forward at this time. Funderburk pointed out these departments had been involved in prior meetings and questioned why these levels were not suggested earlier. County Executive Ortwerth clarified the setting of criteria falls under the jurisdiction of the Department of Natural Resources and they were involved in the meetings held to discuss effluent levels. Ortwerth stated they welcomed suggestions and comments from other agencies but the Department of Natural Resources is the one that has the regulatory authority.

Council Member Schnur noted his concern regarding mandating these systems to require a 5/5 level. Schnur stated Ken Maki had cautioned against enacting penalties requiring a 5/5 level because of the variances that occur within any normally operating systems. Schnur continued, that Mr. Maki's contention is the requirement of 10/15 levels is adequate and this has been his recommendation all along. Schnur also expressed his desire to have the Council consider adding language to include allowing other similar non-conventional technology, should that technology come along in the future, that meets the criteria that is achieved by the MBR (Membrane Bioreactor) systems. Schnur noted the language would also need to be included that this new technology would have to have the approval of the appropriate bodies when the plans are reviewed.

Council Member Brazil expressed his concern regarding allowing future systems. Brazil questioned why this change would be necessary and expressed his concern this would leave a loophole to allow future systems that do not meet the standards of the MBR Systems. Brazil stated without adopting the 5/5 standard, nothing has been accomplished.

Council Member Schnur commented that during the Council's presentation on the MBR system, the systems provides standards substantially below the 10/15 levels and that it is his opinion the 5/5 mandate is excessive. Council Member Schnur pointed out these regulations will set a precedent for other entities but unfortunately this will accomplish improvements in only a fraction of the watershed. Schnur stated until the Missouri Department of Natural Resources steps forwards and aggressively addresses the issues of the entire watershed, there will be little improvement.

After further concerns brought forward by Council Member Brazil regarding acceptable levels, Council Member Schnur stated that at the work session, MBR Technology was agreed upon as the acceptable choice for future systems, but a level had not been agreed upon. County Executive Ortwerth stated it was his understanding that with the approval of the MRB systems, this would essentially accomplish a 5/5 effluent standard but there

would be no penalties imposed unless they exceed the 10/15 level.

Council Member White stated it was his understanding the MBR systems would achieve the 5/5 standards but they were not officially put in place because of the variances that do occur within normal operating systems. White stated it was his opinion that 5/5 should be the goal of these systems.

Discussion occurred on the determination of what this bill should officially mandate for effluent standards. After further lengthy discussion, County Executive Ortwerth stated he would try to secure Mr. Maki to address the Council at the next council meeting to clarify the issues of concern that were brought forward tonight.

Bill No. 2056 – Sponsored by Terry Varner – An Ordinance amending Chapter 405 of the Ordinances of St. Charles County, Missouri, upon Application 1599

Bill No. 2057 – Sponsored by Dan Foust – An Ordinance amending the Zoning District Map of the County of St. Charles, Missouri, by rezoning land from C2, General Commercial District to PUD, Planned Unit Development Overlay District, as per Application 1596

Discussion: Council Chair Schnur questioned with the vote from the Planning and Zoning Commission being five to five, does this constitute a denial vote. County Counselor, Joann Leykam, confirmed it does. Leykam explained another issue that needs to be clarified is that currently there is a Planned Unit Development (P.U.D.) that had been previously approved for this property, so in fact this is not a rezoning request. Leykam noted that although the previous P.U.D. did not transpire, it does not go away. She pointed out the plat does have an expiration date. County Executive Ortwerth explained this bill would need to be amended.

Council Chair Schnur called for a short recess at approximately 8:50 p.m. for the video department to change tapes. Council Chair Schnur called the meeting back to order at approximately 9:00 p.m.

After questioning by Council Member Funderburk, Steve Lauer explained how the voting had taken place on this issue. Leykam elaborated on the process, which took place and clarified that the outcome was a recommendation for denial.

Council Member Funderburk requested background on the concerns regarding the drainage and stream bank issues. Lauer confirmed this development is adhering to the twenty-five foot setback for stream banks that was recently enacted. Funderburk questioned if this development will cause long-range problems, which has been the concerns of some residents. Lauer noted the engineering issues would be researched when the plans are forwarded to the County Engineer for their approval. Funderburk questioned the other concerns that sewer access would be a problem. Lauer stated the necessary easements would need to be obtained by the developer. Funderburk questioned how many homes did the original P.U.D. suggest. Lauer confirmed it was over five hundred.

Council Member Funderburk questioned Don Delmez on what the status was on negotiations with the City of St. Charles in acquiring this property to be operated as a golf course by the City of St. Charles. Delmez stated the City of St. Charles has expressed an interest in this possibility but cannot move in that direction with the current contract on

the property in place. Funderburk stated he had a meeting with the Mayor and various alderman with the City when this issue was first brought forward and it was made clear to him that the City did not have any intention to try to purchase property because they did not have the funds.

Council Member Brazil noted one of the concerns brought forward was regarding the tree preservation ordinance that was recently enacted and noted this plan does exceed the requirements. Brazil stated he would like to see some of the concerns worked out because if this plan is denied by the County and is accepted into the City of St. Charles, a new plan could be submitted and be much less desirable than the present one before the Council. Brazil noted another concern was the concrete and asphalt that has been dumped in the creek and he stated the developer has agreed to clean up the creek banks and restore them to their natural state.

Council Member Varner questioned Tom Hughes, developer, on the sewer easement issue. Hughes stated there are currently three sewer lines that run through the property and they have access to all three. Hughes clarified this is the first step in the process for development of this property and the Corp. of Engineers, Department of Natural Resources, and County Highway Department all must approve the final plans. Hughes said they fully intend to comply with all regulations as well as the traffic study that was recommended but this is only the first step in this process. Hughes stated they are fully aware of all the environmental issues involved in this property and are fully prepared to address these issues. Hughes stated they have already had initial meetings with their engineers to address the storm water problems.

County Executive Ortwerth questioned whether the streets in the gated community would be public or private streets. Hughes confirmed they would be private streets. Hughes clarified there was an issue brought forward regarding access to York Drive and the determination was made this would not be necessary to facilitate the flow of traffic from this development. Ortwerth explained the County would not be willing to accept private streets for county maintenance if the public did not have access to those streets.

Bill No. 2058 – Sponsored by Bob Schnur – An Ordinance granting Conditional Use Permit C578 for a single family/single household dwelling to Kenneth and Ruby Sasek

Bill No. 2059 – Sponsored by John White – An Ordinance of the County of St. Charles, Missouri, approving the Preliminary Plat of the Estates at Heritage Trails

Discussion: Council Member Funderburk questioned the status of construction access to this property. County Executive Ortwerth clarified it was not under the County's jurisdiction to determine construction access and that the original accusation made that a deal was made with the Heritage residents is absolutely false. Joann Leykam, County Counselor, pointed out there will be two points of access to the development, but this does not mandate construction access because that is beyond the jurisdiction of the County to delegate this issue. County Executive Ortwerth pointed out there are rules regarding use of public roads.

Council Member White requested the developer come forward to address the construction access issue. Steve Groeper, Westward Expansion, stated he was aware he would need to secure two entrances and he had one through Foxpoint but was unclear about utilizing Savannah Ridge, during the construction process. County Executive Ortwerth clarified that the position the County took was the County was going to grant approval for a

separate road built north of Foxpoint Subdivision that would connect directly onto Upper Bottom Road and would agree to a connection to the west into Heritage near where the new Service Road is being built. Ortwerth clarified the County did not grant construction access to the existing subdivision streets in Foxridge or Heritage Landing. Funderburk clarified it was the property owners association in Heritage that made the determination they would grant access to this development but not during the construction phase.

Council Member White explained there are efforts under way to try to obtain access through the Missouri Department of Transportation and from Fred Weber. White stated it was his understanding that Fred Weber has granted permission for the initial construction equipment to be transported through his property so it will not affect either subdivision. White urged the residents to petition the Missouri Department of Transportation to grant another alternate access and the more citizens that petition them the better the chances will be to obtain another access road.

Bill No. 2060 – Sponsored by Council As A Whole – An Ordinance authorizing the County Executive to execute an intergovernmental agreement between the County and the Missouri Department of Transportation for Job No. J6P0672D to make improvements on Route 40 at Route 364 (Page Avenue)

Bill No. 2061 – Sponsored by Terry Varner – An Ordinance placing the creation of the Westmoor Estates Road Neighborhood Improvement District on the November 5, 2002 ballot

Bill No. 2062 – Sponsored by Terry Varner – An Ordinance placing the creation of the Big Country Acres Road Neighborhood Improvement District on the November 5, 2002 ballot

Bill No. 2063 – Sponsored by John White – An Ordinance accepting plans and specifications, ordering the improvements be made, setting forth a proposed assessment roll, and authorizing the interim financing for the sanitary sewer improvements for the Indian Meadows Neighborhood Improvement District

Bill No. 2064 – Sponsored by Terry Varner – An Ordinance accepting plans and specifications, ordering the improvements be made, setting forth a proposed assessment roll, and authorizing interim financing for the sanitary sewer improvements for the Lake Charles Neighborhood Improvement District

Bill No. 2065 -Sponsored by Doug Funderburk – An Ordinance placing the creation of the Oakridge Estates Sanitary Sewer Neighborhood Improvement District on the November 5, 2002 ballot

Bill No. 2066 – Sponsored by Joe Brazil and Doug Funderburk – An Ordinance requiring inspections of private sewage disposal systems and private wells prior to the transfer of ownership of properties served by them, and further requiring the licensure of individuals to perform those inspections

Discussion: Council Member Faith questioned how this bill originated. Dave Hammond, Director of the County Building Department, clarified the Federal Government a few years ago, mandated that anybody borrowing federal money be required to have inspections on sewage disposal systems, septic tanks, and wells prior to sale of this property. Hammond continued this is a further effort to protect the citizens and the environment regarding

health issues that arise from faulty systems. County Executive Ortwerth stated this ordinance originated at the request of Council Member Brazil when he requested the submittal of four ordinances a few months ago. Ortwerth stated that manpower was an issue at that time but this allows the County to earmark properties at the time of sale and not just when federal money is involved. Hammond noted this utilizes inspectors that are available and mandates they be licensed and bonded and this will ensure a thorough inspection is made on those properties. Hammond noted currently some installers are performing the inspections, which is not a good deal. Council Member Funderburk questioned if this bill deals with systems that service multiple homes. Hammond responded that package treatment plants are not regulated under this bill.

Bill No. 2067 – Sponsored by Bob Schnur – An Ordinance amending Section 215 of the Ordinances of St. Charles County, Missouri relating to regulation of security alarm systems

Discussion: Council Chair Schnur stated this bill was requested by Sheriff Saulters to address the ongoing problems of security systems that lead to false alarms. Schnur noted the fines imposed for these false alarms calls are consistent with other municipalities and strives to make the property owner more accountable.

Bill No. 2068 – Sponsored by Terry Varner – An Ordinance placing the creation of the Peine Farms Road Neighborhood Improvement District on the November 5, 2002 ballot

Bill No. 2069 – Sponsored by Council As A Whole – An Ordinance amending Ordinance 01-179 of St. Charles County, Missouri relating to a supplemental appropriation of \$250,000 to the St. Charles County Non-Departmental Fund

Bill No. 2070 – Sponsored by Bob Schnur – An Ordinance authorizing the County Executive to execute an intergovernmental agreement between the County and the Missouri Department of Transportation for installation of a Missouri Logos sign to indicate the location of Quail Ridge Park at an initial cost of \$550 and an annual cost thereafter of \$450

Discussion: Council Member Varner questioned which Highways are being marked.

Bettie Yahn-Kramer, Director of Parks, clarified they will be placed on Highway 40-61 near Callahan Road and the Service Road and this will direct visitors to Quail Ridge Park.

Bill No. 2071 – Sponsored by Doug Funderburk – An Ordinance providing for the submission to the qualified voters of St. Charles County the issue of fees for permits required for Solid Waste Collection and Transportation

Discussion: Council Member Faith questioned if there is currently a fee for this issue at the present time. County Executive Ortwerth clarified there is currently a fee collected and explained that a few years ago there was an extensive list of issues that were presented to the voters and they were rejected. He explained this is an effort to simplify some of the requested fees, which are needed to cover the cost to provide the service. He noted some additional requests would be brought forward next month but noted the County feels they have no choice in requesting increases on these certain services.

Bill No. 2072 – Sponsored by Doug Funderburk – An Ordinance providing for the submission to the qualified voters of St. Charles County of the issue of surcharges for

wastes deposited in Sanitary Landfills and Demolition Landfills

Discussion: County Executive Ortwerth noted an error was made in the ballot language of this bill and requested an amendment be made. Council Member Faith made a motion to amend this section, seconded by Council Member Varner and unanimously approved. The amendment as follows:

Surcharge for Wastes Deposited at Sanitary Landfills and Demolition of Landfills as follows:

Five Two and One Half Percent (2.5%) of Published Gate Fee

For Construction/Demolition/Heavy Waste.

Bill No. 2073 – Sponsored by Doug Funderburk – An Ordinance amending the Solid Waste Management Code of St. Charles County

Bill No. 2074 – Sponsored by Bob Schnur – An Ordinance amending Ordinance 01-179 and Chapter 115.710 of the Ordinances of St. Charles County, Missouri, Pay Grades-Chart relating to the pay grade for the Director of the St. Charles County Airport

Bill No. 2075 – Sponsored by Council As A Whole – An Ordinance fixing and establishing the rate and levying of taxes for the General Revenue Funds and for various special funds of and for the County of St. Charles, Missouri, for the year 2002

Bill No. 2076 – Sponsored by Bob Schnur – An Ordinance amending Section 115 of the Ordinances of St. Charles County, Missouri relating to the Personnel Administration Program

Bill No. 2077 – Sponsored by Bob Schnur – An Ordinance authorizing the County Executive to execute an intergovernmental agreement with the City of St. Charles for collection of the residential sewer lateral repair fee

Bill No. 2078 – Sponsored by Bob Schnur – An Ordinance authorizing acceptance of Juvenile Drug Court Implementation Grant 2002-DC-BX-0035 from the U.S. Department of Justice

IN THE MATTER OF TABLED BILLS

There were no bills brought off the table.

IN THE MATTER OF ANNOUNCEMENTS & MISCELLANEOUS

Council Member Schnur thanked everyone for their kind expression of sympathy with the passing of his father.

There being no further business, upon motion made by Council Member Funderburk, the meeting adjourned at 10:02 p.m.

Examined and approved _____
Bob Schnur, Council Chair
St. Charles County, Missouri
